OUR JAPANESE VISITORS.

OUR JAPANESE VISITORS.

When the Japanese squadron visits the Egyptian ports—though the date of this occurrence is not yet settled—we can imagine that the public will show the utmost interest not only in the vessels that went through the stress of the first great naval war fought under modern conditions, but in the men who manned them. The fight of August 10, 1904, had for all the navies an importance that cannot be under-estimated. It showed the importance of straight-shooting with the heavy gun, and its fruit was the Dreadnought. The victory of the See of Japan proved even more decisive:

its lessons are to-day vigorously discussed by sailors of every nation, and the men whose boyhood was passed under a feudal regime, whose first war-vessels were junke whose first arms arrows and swords, have taught the world fresh lessons in naval warfare. Yet these achievements, great as they were,

boynood was passed under a gugal regime, whose first war-vessels were junks, whose first arms arrows and swords, have taught the world fresh lessons in maval warfare.

Yet these achievements, great as they were, were not in our opinion the greatest to the credit of the Japanese navy. On a foggy day in May the Japanese fleet, cruising off Port Arthur, ran into a minefield. The battleships Hatsuse and Yashima and the swift cruiser Yoshino were lost. In a few minutes, without a shot being fired, the Japanese fleet had lost one-third of its battleship strength and one of the fastest of its scouts. It was faced by an equal force of vessels in Port Arthur and behind all by the menace of the Baltic fleet, and for a moment its seemed that the four modern battleships that remained could not hope to maintain even the semblance of a blockade of Port Arthur. Yet the Japanese faced the impossible and performed it. The crew of the Yashima wrote long letters home describing the sinking of the Hatsuse (which the Russians had witnessed) and stating that all was well with their ship. The fleet continued its blockade—a patriotic and silent corps of officers breathed no word of the great misfortune that had befallen them, and so little did even the Russians dream of their own success in sinking one-third of the Japanese battle fleet that many of the combatants in the fight of August 10 declared that they had seen the Yashima in the hostile line, though it is now known that the islanders pitted four battle-ahips against six on that day and four against eight on May 28, 1905.

It is this quality that is, in our opinion, one of the strongest naval and military assets of Japanese power—the quality that has enabled them to face risks undaunted by losses: something higher than mere dan. Stubbornness, fortitude, whatever name you will, it is one of this greatest aids to victory. Other islanders have, after arduous wars, retired to their armchairs, composed treaties on "the lessons of the—War," and neglected their forces, Japan, while fol

GERMANY AND PEACE.

ATTITUDE TOWARDS HAGUE

Bealin, February 1.

The "Cologue Gazette" publishes a telegram from Barlin announcing that the Chancellor had received Mr. Stead. The former declared to him that Germany, like other countries, considers it her duty to endeavour, in the second Hague Conference, to forward the people's right in the name of humanity. Germany can do this all the better because she has not been engaged in war for more than a generation, and has adopted as her aim the preservation of peace. It is for that reason that the Imperial Government has accepted Russia's invitation and has studied in a friendly spirit all the items of the programme. The programme spears to contain questions requiring above all a pacific solution. As to the wishes of private individuals expressed by Mr. Stead to the Chancellor, the latter proved to him how seriously Germany is taking the Hague Conference, but recalled the proverb: "Who grasp much holds little". The Chancellor added that the extension of the programme, which has already become a part of the business of the conference, might raise serious objections on many sides which would have in any case to be submitted and examined with attention.

Mr. Stead appears to have gathered from Mr. Stead appears to have gathered from

STRICTURE AND KIDNEY DISEASE

54, Brighton Place, Hampton Square, Sheen Lane, Mortlake,

54, Brighton Place, Hampton Square,
Sheen Lane, Morlake,
London, England
For nearly 19 years I suffered from strictore
and kidney-disease, and many a time have I
laid on the bedroom floor writhing in agony
Twice I have been in hospital and undergous
operations for the stricture. Never, as long as
I live, shall I forget what I went through then.
The doctors said I could not live another three
months, yet I can truly say that, although two
years have passed since, then, I was never
better in my life than I am to-day.
My illuess came on in this way: One dayat my work I strained my back, and afterwards
soffered from severe cutting pains, just over
where the kidneys are, especially when I stoop
ed. I could not sleep well at nights, and there
were distre sing urinary disorders. I wamiserable and out of sorts, and although the
doctor did all he could for me, I got worsinstead of better. If I had a glass of beer it
riritated my kidneys so much that I had to
keep to my badfor a week, but since using
Doan's Boksche Kidney Pills I can enjy my
glass without feeling a bit the worse for it.
It wan't until I had disshed the fourth box
of Doan's Pills that they seemed to be doing
me any good, but I persisted with the medicine,
and with the fifth box there was a decidedly
freer action of the bladder. No other medicine
and with the fifth box there was a decidedly
freer action of the bladder. No other medicine
had ever helped me at all, and you can imagine
how delighted -I was at this relief. For six
months I continued with Doan's Back sche
Kidney Bills, and then I was entirely cured of
the articities and kidney diesease. From that
day to this there hasn't been any sign of the
old complaint returning.

OUR SUDAN. By JOHN WARD, F.S.A.

Lord Kitchener of Khartoum.

Letter from Sir Rudolph von Slatin.

Dear Mr Ward,— Your delightfol and most interesting book on the Soudan has reached me. I congratulate you heartily on the excellent manner in which the work is written and illustrated. All of us who have done our little best to regenerate the country, after its terrible mis fortunes, have received more than kind treatment at your hands... I don't suppose anyone realises more than I do the charge that has come over the Sudan since my old and tyransical master the Khalifa dirappeared from the scene. Your description of the Peace and Progress' is, in fact, a sequel to my 'Fire and Sword in the Sudan.'

Sword in Sudan.'

With kindest regards, believe me, Yours sincerely,

Yours sincerely,
